identical**

New Prompt Strategy (Modality-aware prefixes)

Text-only

Use only the question text and general world knowledge. Do not assume access to audio or visual evidence.

Q: "How many instruments are playing in the video?"

Audio-only

Use only auditory evidence from the provided audio. Ignore visual priors and answer from what you hear, such as timbre, pitch, rhythm, or source sound.

Q: "How many instruments are playing in the video?"

Image-only

Use only visual evidence from the provided image. Ignore audio priors and answer from what you see, such as object appearance, motion, count, or scene cues.

Q: "How many instruments are playing in the video?"

Both

Combine auditory and visual evidence. Use sound for audio properties, use vision for visual properties, and resolve conflicts by requiring consistency across both modalities.

Q: "How many instruments are playing in the video?"

**Each
unique**
